

# McCleary Child Find Screening

## Do you have concerns about your child's development?

- A medical condition which is interfering with growth and/or learning
- Hearing or vision problems
- Difficulty being understood by people outside of the family
- Has trouble keeping up with other children the same age
- Demonstrates social-emotional difficulties that interfere with learning

## What is Child Find Screening?

Screening is a free check of your child's development (age 3-5) who reside in our district. If your family is living in a temporary situation, you may contact the district where you are staying to attend a screening.

If your child is younger than 3, and you have concerns about their development please call Grays Harbor County South Sound Parent to Parent Network at (360) 637-8586.

## What happens during a screening?

During the screening your child may stack blocks, cut with scissors, draw, count, name colors, jump, and have fun! Following the screening a trained professional will talk with you about the results of the screening. You may be given home suggestions, referred for further testing, or be scheduled to have skills rechecked at a later date. The screening process usually takes about 45 minutes to 1 hour.

## Where do I go for screening?
